RE: Docket # 03-00529

Dear Mr. Bellek:

According to Tennessee statutes, applicants for CLEC certification are required to demonstrate their managerial, financial and technical abilities to provide the services for which they seek authority. IDT America, Corp. filed an Application for a Certificate of Convenience and Necessity to provide competing local telecommunications services within the state of Tennessee on September 24, 2003. The Authority sent a data request on October 9, 2003 requesting information not included with the application. A data response was received on November 20, 2003; however, based on the responses, the application lacked information needed to process the application. A second data request was sent on February 10, 2004 and a response was received on March 5, 2004. The response, however, stated that IDT needed additional time to prepare the information concerning complaints. There have been numerous phone calls to your office requesting this information, and to date nothing has been received by the Authority.

This is the final request of the additional information needed to process your CLEC application. This matter will be placed before the Authority on July 26, 2004 for action relative to your Petition. It is therefore imperative for you to respond in full to the February 10, 2004 data request concerning consumer complaints no later than June 30, 2004. Failure to do so will result in consideration of an incomplete application.

If you have any questions concerning this request or need additional information, please call Patsy Fulton at 615-741-2904 ext. 193.

Sincerely,

Joe Werner, Chief of Telecommunications
